

Who We Are & What We Do

Iron Gate Consulting builds and manages fully automated online stores for clients who want long-term, hands-off passive income.

You are not running the store.

You are not picking products.

You are not dealing with customers.

We handle everything, including:

- Building the store
- Setting up all systems
- Product research and product selection
- Daily operations and fulfillment
- Customer service
- Scaling and optimization
- Monthly reporting

Before anything goes live, we:

1. Identify the products and strategy
2. Email you the plan
3. Get your approval
4. Then launch

You stay informed, but you never have to do the work.

Your Initial Set-up Investment (\$15,000)

The starting cost is **\$15,000**.

This covers:

- Store build-out
- System setup
- Product sourcing
- Marketing setup
- Operational infrastructure

This is the one-time cost to get your store built and running.

How You Earn Money (The 80/20 Split)

Once the store is running, the profit is split:

- **You receive 80%**
- **Iron Gate receives 20%** for managing everything

This split is fixed, transparent, and simple.

Your Profit Depends on YOUR Investment Amount

After the store is built, the amount you choose to invest in the store determines:

10845 W Griffith Peak Drive | 89135

(775) 298-1344

odafinancial.com

- How fast the store grows
- How much inventory can be moved
- How much profit the store can generate

The attached calculator shows exactly how different investment amounts produce different monthly and yearly incomes.

How to Read the Calculator (Simple Breakdown)

The calculator shows:

- Your investment amount
- The possible monthly return (25%, 30%, or 35%)
- The store's total monthly profit
- Your 80% share
- Your monthly income
- Your yearly income

Each row is just a different scenario, so you can see what fits your goals.

Example Using the First Row

Here's one example from the calculator so it's completely clear:

- You invest **\$10,000 (additional to \$15,000 set up fee)**
- The store earns **25% profit** that month
- The store makes **\$2,500**
- You receive **80%**, which is **\$2,000 per month**
- That equals **\$24,000 per year** in passive income

This is only one scenario.

The calculator shows multiple ROI options and investment levels.

A Quick Note About Idle Money

If you have money sitting in a bank account, it's not growing — it's losing value to inflation.

This model gives your money a job.

It works for you every month.

It generates long-term, residual income without requiring you to manage anything.

Final Notes

- This is a hands-off operation
- You receive 80% of the profit
- We confirm every step before moving forward
- You can resell your position later if needed (we recommend keeping resale markup under \$2,000 to stay attractive)

Investment Amount	Monthly ROI %	Total Monthly Profit	Client Share % (80%)	Client Monthly Profit	Annual Client Income
\$10,000	25%	2500	80%	2000	24000
\$10,000	30%	3000	80%	2400	28800
\$10,000	35%	3500	80%	2800	33600
\$25,000	25%	6250	80%	5000	60000
\$25,000	30%	7500	80%	6000	72000
\$25,000	35%	8750	80%	7000	84000
\$50,000	25%	12500	80%	10000	120000
\$50,000	30%	15000	80%	12000	144000
\$50,000	35%	17500	80%	14000	168000
\$75,000	25%	18750	80%	15000	180000
\$75,000	30%	22500	80%	18000	216000
\$75,000	35%	26250	80%	21000	252000
\$100,000	25%	25000	80%	20000	240000
\$100,000	30%	30000	80%	24000	288000
\$100,000	35%	35000	80%	28000	336000

**Please note above investment amounts are additional to the \$15,000 setup fee.*
